Microsoft Surface 13.8" 8th Edition Series Core Ultra Series 3 EP2-47924 Platinum Notebook, Intel Core Ultra X7 368H Series 3 Sixteen (16) Core Panther Lake Turbo Boost up to 5Ghz 18MB L3 Cache Processor (4 Performance Cores & 8 Efficient-cores & 4 Low Power Efficient Cores), 32GB LPDDR5 Memory onboard, Supports 32GB Max Mem, No memory slots, 1TB SSD Solid State Hard Drive PCIe, NO optical drive (No CD), 13.8" Capacitive Multi Touch Screen (2304 x 1536 resolution) Glossy Type LED Backlit Display, Intel Arc B390 Graphics, Intel NPU Peak 50 TOPS, Wi-Fi 7, Bluetooth, Webcam, 1x USB 3.2 Type-A, 2x Thunderbolt 4, 1.4 kg, Microsoft Windows 11 Professional 64 bit, 1 Year Carry in warranty

Specifications

Summary Overview:

Upgrade your professional workflow with the Microsoft Surface Laptop for Business 13.8-inch (8th Edition), now available for purchase in South Africa. This premium notebook combines sleek design with powerful Intel Core Ultra 7 performance and advanced AI features to ensure you stay productive anywhere. With its vibrant touchscreen, long battery life, and robust security protocols like Windows Hello and TPM 2.0, it is the ideal choice for modern enterprises.

Designed for efficiency and mobility, this laptop features a durable aluminium casing, a high-resolution anti-reflective display, and fast connectivity via Thunderbolt 4 ports. Whether you are attending video conferences or managing complex tasks on the go, the Surface Laptop delivers reliability and speed. Secure your productivity today by buying now.

Laptop performance tier:High-end Business

Uses:Corporate management, Video conferencing, Data analysis, Content creation, Software development

Overview:

Microsoft Surface Laptop for Business 13.8" (8th Edition) Overview

The Microsoft Surface Laptop for Business 13.8-inch (8th Edition), part number EP2-47924, represents the pinnacle of modern professional computing designed specifically for today's dynamic organizations. This premium notebook blends a sleek, lightweight aluminum chassis with robust Intel performance and advanced AI-assisted tools to deliver a seamless workflow whether you are in the office, working remotely, or traveling. The device prioritizes security and efficiency, ensuring that sensitive business data remains protected while providing the speed necessary for demanding multitasking tasks.

Designed for clarity and comfort, the 13.8-inch PixelSense touchscreen features an anti-reflective coating certified to ISO standards, making it easy to view content even in bright environments. The integrated Full HD camera with intelligent enhancements ensures you look your best during high-stakes video conferences. With a powerful Intel Core Ultra processor and long-lasting battery life, this laptop is built to keep up with the most rigorous business schedules without compromising on speed or reliability.

Description

This premium business notebook delivers exceptional performance for modern work environments through its integration of AI capabilities and enterprise-grade security. The 13.8-inch PixelSense display offers stunning clarity with a high brightness level, while the 32 GB of onboard RAM ensures smooth multitasking for heavy applications. Users benefit from rapid data access via the 1 TB SSD, secure boot processes with Windows Hello, and versatile connectivity options including Thunderbolt ports. The inclusion of a dedicated Copilot key further streamlines productivity workflows, making this an ideal choice for professionals who require reliability and power in a portable form factor.

Features:

Why This Laptop Stands Out

The Surface Laptop 13.8-inch (8th Edition) is engineered to meet the rigorous demands of enterprise users without sacrificing portability. Its design philosophy centers on creating a distraction-free environment where performance and security coexist harmoniously. The device leverages AI technology to optimize productivity, allowing professionals to focus on strategic tasks rather than administrative hurdles. Security is woven into the fabric of the hardware with TPM 2.0 support and Windows Hello biometric login, ensuring that your data remains safe from unauthorized access.

Built for mobility, the laptop weighs just over a kilogram yet houses a powerful Intel Core Ultra processor capable of handling complex workloads effortlessly. The battery technology is optimized to provide extended usage times on a single charge, supported by fast charging capabilities via USB Power Delivery so you can quickly top up during short breaks. Whether you are drafting reports, analyzing data, or leading virtual meetings, this machine provides the stability and speed required for professional excellence.

Key Technical Specifications

To help you understand exactly what powers this device, here is a breakdown of its core components and capabilities:

- Processor: Intel Core Ultra 7 366H running at 2.0 GHz with advanced AI acceleration
- Memory: 32 GB LPDDR5X RAM for seamless multitasking and rapid app switching
- Display: 13.8-inch PixelSense touchscreen with 2304 x 1536 resolution, 3:2 aspect ratio, and 600 nits brightness
- Storage: High-speed 1 TB SSD in an M.2 PCIe form factor for quick boot times and file access
- Graphics: Integrated Intel Graphics optimized for everyday productivity tasks
- Operating System: Windows 11 Pro 64-bit pre-installed with enterprise management features
- Battery: 6-cell Li-ion battery with a capacity of 4755 mAh and fast charging support

Connectivity and Design Details

The exterior design is as functional as it is beautiful, featuring a durable aluminum casing in a sleek silver finish. The keyboard includes background illumination for low-light environments and a dedicated Copilot key to instantly access AI assistance. A multi-touch touchpad ensures precise navigation without the need for an external mouse. Security features are robust, incorporating Windows Hello facial recognition and TPM 2.0 hardware-level protection.

Connectivity is comprehensive, allowing you to connect with various peripherals and networks effortlessly. The port selection includes two Thunderbolt 4 ports for high-speed data transfer and video output, a USB 3.2 Type-A port for legacy devices, and a Surface Connect port for charging or docking. Wireless capabilities are handled by integrated WLAN and Bluetooth modules, ensuring stable connections to your office network or peripherals.

- Wireless: Integrated WLAN and Bluetooth support
- Ports: 1 x USB 3.2 Type-A, 2 x Thunderbolt 4, 1 x Surface Connect, 1 x mic/headphones combo
- Dimensions: Compact 220 x 18 x 301 mm profile for easy transport
- Weight: Starting at just 1.35 kg for maximum portability

What's in the Box

When you receive your Microsoft Surface Laptop, the package is curated to get you up and running immediately. The box includes the laptop itself along with a power supply unit rated at 39 W to ensure reliable charging performance.

FAQ

Is the RAM on this Microsoft Surface Laptop for Business upgradeable?

No, the 32 GB of LPDDR5X memory is onboard and not expandable beyond its maximum capacity.

What kind of connectivity ports does this notebook offer for peripherals?

This device includes two Thunderbolt 4 ports, one USB 3.2 Type-A port, a Surface Connect connector, and a combo mic/headphone jack to support various business accessories.

Can I upgrade the storage on this laptop later if I need more space?

Yes, the SSD is removable, allowing you to expand or replace the 1 TB M.2 PCIe drive as your data needs grow.

Does this model come with a power adapter included in the box?

Yes, the package includes a power supply unit that supports fast charging via USB Power Delivery and has an output ranging between 39 W and 65 W.

Is the screen suitable for working in bright environments or outdoors?

The 13.8-inch PixelSense touchscreen features an anti-reflective coating and reaches a brightness of 600 cd/m², making it effective for use in well-lit offices or near windows.
