Overview:

The Apple MacBook Neo MHFD4ZE/A is a lightweight 13 inch notebook designed for everyday productivity, business tasks, and modern AI assisted workflows. Powered by the Apple A18 Pro chip, this compact laptop delivers smooth performance for office work, presentations, web tasks, and multitasking while maintaining impressive energy efficiency.

Built with a durable aluminium chassis, the MacBook Neo combines portability with a premium feel. At just over 1.2 kg, it is easy to carry between meetings, offices, or remote work locations. The slim design and long battery life make it a practical choice for professionals, students, and small businesses looking for a reliable Apple laptop at an accessible price point.

The bright Liquid Retina display, fast solid state storage, and Apple silicon architecture work together to provide responsive performance and clear visuals. Whether you are updating spreadsheets, managing inventory, handling emails, or preparing presentations, the MacBook Neo keeps daily work flowing smoothly.

Features:

Slim Aluminium Build for Work Anywhere

MacBook Neo features a durable aluminium body designed to handle daily use while remaining thin and lightweight. The compact design makes it easy to travel with, carry between workspaces, or use comfortably in smaller environments.

At only about 1.23 kg, it remains highly portable without sacrificing build quality.

Apple A18 Pro Chip Performance

The Apple A18 Pro chip powers the MacBook Neo with a balance of performance and efficiency.

- 6 core CPU with 2 performance cores and 4 efficiency cores
- 5 core GPU for graphics and visual tasks
- 16 core Neural Engine for AI processing
- Optimised Apple silicon architecture

This setup allows the laptop to handle spreadsheets, presentations, multitasking, and everyday productivity tasks smoothly.
